The FURI symposium is an ASU Engineering highlight each year. Those in attendance can learn a lot about how our students are changing the world with groundbreaking innovations and thoughtful experimentation.

**Conversation Starters**

- What is your project about?
- How and/or why did you select this topic?
- What was the most enjoyable part of the project?
- What was the most challenging part of the project?
- How your research experience impact your degree or career trajectory?
- What new skills did you develop as a result of your project?
- What is one thing you learned during your project that you wish you knew before you started?
- What advice would you give a new FSE student?
