## Moving science toward real-world relevance and impact: Why does it matter?

Friday, January 25, 2019  
11:45 a.m.–4 p.m.  
Mercado C 145

Researchers and faculty from the College of Health Solutions, as well as members of the medical community, will discuss how to speed the translation of basic discovery into real-world applications to impact the health of Arizonans. Sessions will feature translational research from across the translational science spectrum. Seminar participants will have the opportunity to identify key research questions and will plan and discuss research that is relevant in our communities.

Event	Speaker	Time
Boxed lunch pick up		11:45 a.m.
Welcome and Dean's remarks	Deborah Helitzer, ScD Dean, College of Health Solutions	12 p.m.
The movement toward dissemination and implementation	Rodger Kessler, PhD, ABPP	12:15 p.m.
Plenary speakers 15 minutes each	Jon Ford Bob England, MD, MPH Woodrow Myers Jr., MD	12:30 p.m.
Panel with plenary speakers	Moderator: Rodger Kessler	1:15 p.m.
The role of translational teams	Scott Leischow, PhD	1:30 p.m.
Break		1:45 p.m.
Presentations 7 minutes each 20 minutes at the end for discussion	Moderator: Matt Buman, PhD, FACSM  Presenters: Siddhartha Angadi, PhD, FACSM Visar Berisha, PhD Shelley Gray, PhD Alexis Koskan, PhD Sonia Vega López, PhD, FAHA Bradley Doebbeling, MD	2 p.m.
Roundtable discussions	Attendees engage with speakers	3 p.m.
Wrap-up and next steps	Scott Leischow	3:45 p.m.
