

Please join Herberger Institute Enterprise and Entrepreneurship Programs as we showcase Herberger Institute students' most creative and innovative ideas.

The Herberger Institute Mike Curb Student IDEA (Innovation in Design, Entertainment, and Arts) Showcase will feature 20 current Herberger Institute design and arts students pitching their ideas to our panel of community leaders including Jennifer Sands, a leader in the arts community, Wanda Dalla Costa, Institute Professor and LEED certified architect, and Phil Weaver-Stoesz, founder of Catalyst Creative, the launch of which was supported by our incubator program in 2016.

Winning students can be awarded a \$500 judge's prize and the audience choice winner will receive a \$250 prize. Refreshments served.
