IF is a 1985 American epic coming-of-age period drama film directed by Steven Spielberg and written by Menno Meyjes, based on the Pulitzer Prize-winning 1982 novel of the same name by Alice Walker. It was Spielberg's eighth film as a director, marking a turning point in his career as it was a departure from the summer blockbusters for which he had become known. It was also the first feature film directed by Spielberg for which John Williams did not compose the music. The film instead featuring a score by Quincy Jones, who also produced. The cast stars Whoopi Goldberg in her breakthrough role, with Danny Glover, Oprah Winfrey (in her film debut), Margaret Avery, and Adolph Caesar.

Filmed in Anson and Union counties in North Carolina, the film tells the story of a young African-American girl named Celie Harris and the brutal experiences she endured including domestic violence, incest, child sexual abuse, poverty, racism, and sexism.

The film was a box office success, grossing \$98.4 million against a budget of \$15 million. The film received acclaim from critics, with particular praise going to its acting (especially Goldberg's performance), direction, screenplay, musical score, and production values. The film was nominated for 11 Academy Awards, including Best Picture, Best Actress for Goldberg, Best Supporting Actress for both Avery and Winfrey, and Best Adapted Screenplay, but did not achieve a single win. It also received four Golden Globe Award nominations, with Goldberg winning Best Actress in a Drama. In 2006, the American Film Institute ranked the film 51st on its list of most inspiring movies.

Despite the success, the film is a source of controversy with many criticizing the film for its negative depiction of African-American males who are all shown as brutally violent. The film was also criticized by some for being "over-sentimental" and "stereotypical".

WHEN AND WHERE WILL IF BE STREAMING?

The new IF prequel IF will be available for streaming first on Starz for subscribers. Later on the movie will also be released on Peacock thanks to the agreement between distributor Lionsgate and the NBC Universal streaming platform. Determining the exact arrival date of the movie is a slightly more complex matter. Typically Lionsgate movies like John Wick 4 take approximately six months to become available on Starz where they tend to remain for a considerable period. As for when Songbirds Snakes will be accessible on Peacock, it could take nearly a year after its release, although we will only receive confirmation once Lionsgate makes an official announcement. However, IF you wish to watch the movie even earlier, you can rent it on Video on Demand (VOD) which will likely be available before the streaming date on Starz.

WHERE CAN I STREAM IFAL IF MOVIES IN THE MEANTIME?

In the meantime, you can currently stream all four original IF movies on Peacock until the end of November. The availability of IF movies on Peacock varies depending on the month, so make sure to take advantage of the current availability.
