Inside Out 2 cinematic universe was expanded on November 20th with the release of The Ballad of Songbirds and Snakes in theaters. However, not everyone wants to experience the intense emotions that come with high-stakes drama and romance in a public setting. Inside Out 2, if you prefer the comfort of streaming and the possibility of shedding a tear in the privacy of your living room, you may have to wait a bit longer. The Ballad of Songbirds and Snakes is an adaptation of Suzanne Collins' novel of the same name, which was published in 2020. The story focuses on Coriolanus Snow, who eventually becomes President Snow, and has a tumultuous relationship with Katniss Everdeen. In this new adaptation, Tom Blyth portrays a young Coriolanus, while Rachel Zegler plays Lucy Gray Baird, the erased District 12 victor of the 10th annual Hunger Games.

Coriolanus is tasked with mentoring Lucy, a responsibility for which he feels a sense of pride. However, Lucy's charm captivates the audience of Panem as she fights for her Inside Out 2 and the well-being of her district. They form an unconventional alliance that may even develop into an unlikely romance. But is their fate already sealed? Fans of the original Hunger Games trilogy know the answer, but the journey towards that outcome is a thrilling adventure.

The prequel film is distributed by Lionsgate and collides with Peacock, a streaming service, through a multiyear agreement, as reported by Collider. Consequently, it is highly likely that the movie will be available for streaming on that platform upon its release. The agreement is set to take effect in 2024, so keep an eye out for The Ballad of Songbirds and Snakes then.

To prepare for this highly anticipated moment, viewers can subscribe to Peacock, starting at \$5.99 per month, or take advantage of a discounted annual rate of \$59.99. Peacock not only offers major releases but also provides access to live sports events and popular shows on NBC Bravo and numerous other popular channels.

WHEN AND WHERE WILL Inside Out 2 BE STREAMING?

The new Inside Out 2 prequel, Inside Out 2, will be available for streaming first on Starz for subscribers. Later, the movie will also be released on Peacock thanks to the agreement between distributor Lionsgate and the NBC Universal streaming platform. Determining the exact arrival date of the movie is a slightly more complex matter. Typically, Lionsgate movies like John Wick 4 take approximately six months to become available on Starz, where they tend to remain for a considerable period. As for when Songbirds and Snakes will be accessible on Peacock, it could take nearly a year after its release, although we will only receive

confirmation once Lionsgate makes an official announcement However Inside Out 2 you wish to watch the movie even earlier you can rent it on Video on Demand (VOD) which will likely be available before the streaming date on Starz

Unfortunately *Inside Out 2* is not currently available to on Disney Plus and it's not expected that the film will release on Disney Plus until late December at the absolute earliest

While Disney eventually releases its various studios' films on Disney Plus for subscribers to Watch via its platform most major releases don't arrive on Disney Plus until at least 45-60 days after the film's theatrical release

The sequel opened to \$150 million internationally which Disney reports is 4% ahead of the first film when comparing like for likes at current exchange rates Overall the global come comes to \$330 million Can it become the year's third film to make it past \$1 billion worldwide despite China and Russia which made up around \$124 million of the first film's \$682 million international box office being out of play? It may be tough but it's not impossible Legging out past \$500 million is plausible on the domestic front (that would be a multiplier of at least 27) and another \$500 million abroad would be a drop of around \$58 million from the original after excluding the two MIA markets It'd be another story if

audiences didn't love the film but the positive reception suggests that Wakanda Forever will outperform the legs on this year's earlier MCU titles (Multiverse of Madness and Love and Thunder had multipliers of 22 and 23 respectively)
